

How Can a Lane Change Help You *Earn More?*

The sooner you earn credits, the greater your lifetime earnings.

As an educator, you know the intrinsic rewards of continual learning. And no doubt you know the financial rewards, too. But here's one thing we've learned as a provider of graduate-level, continuing education: not all teachers realize how much money they leave on the table when they delay accruing credits.

Use this worksheet to calculate the return on your education investment. This accounts for your salary gains only. You might also receive a greater pension in retirement.

- 1 Locate your salary schedule, which can be found in your district contract.
- 2 Complete this worksheet and see how much more you could be earning.

Lane Changes

Row		BA+15 from BA	MA+15 from MA	MA+30 from MA	Other Level
1	Salary increase. Fill in the additional salary you will earn at each credit level.	\$	\$	\$	\$
2	Retirement. Fill in the number of years until you retire.				
3	Lifetime salary gain. Multiply rows 1 and 2. Fill in the \$ you will gain until you retire.				
4	Cost of credits. Choosing ACE 5-course bundle @ \$1,995 as an example.	\$1,995	\$1,995	\$1,995	
5	Net return on your education investment. Subtract row 4 from row 3.
